PRODUCT DESCRIPTION

Designer: Guillaume Delvigne

Fabbian Aerostat Floor Lamp

The Fabbian Aerostat Floor Lamp is crafted from white blown glass with a metal cage-like structure. Designed by Guillaume Delvigne, this floor lamp was designed to resemble an airship, aiming to craft an object that appears lighter than air. The diffuser appears to perch effortlessly atop the metal body, producing a functional but glare-free illumination that casts a welcoming glow across the room. The body of the Aerostat Floor Lamp is available in three finishes, Black, Brass or Copper, allowing it to adapt to a wide range of interiors.

Although a sufficient size, the Fabbian Aerostat isn't imposing, thanks to its slender base. It is a beautiful addition to living areas, entryways, dining rooms and even kitchens. It can also be utilised in commercial spaces such as hotels, restaurants and galleries.
