PRODUCT DESCRIPTION

Designer: Charles Williams

Fontana Arte Amax Pendant Light

The Fontana Arte Amax Pendant Light, designed by Charles Williams in 2003, is a contemporary interpretation of the classic lampshade. This elegant suspension light features a minimalist conical diffuser crafted from white polyethene, offering soft, ambient illumination that enhances both residential and commercial interiors. Its clean lines and versatile design make it an ideal choice for dining areas, living rooms, and open-plan spaces, as well as professional environments like lobbies and conference rooms.

Available in four sizes, the Amax Pendant Light can adapt to a range of settings, with the larger sizes making a bold statement in expansive interiors. An optional closing disc in methacrylate is available for added diffusion and glare reduction, further elevating its functionality. Supported by a chromed metal frame and suspended by steel cables, the Amax Pendant Light is both visually striking and expertly engineered, blending form and function seamlessly.
