## PRODUCT DESCRIPTION

**Designer:** Vilhelm Lauritzen

### VL38 LED Floor Lamp by Louis Poulsen

Based on a design by Vilhelm Lauritzen from the 1930s, the VL38 LED floor lamp has a lovely brass stem that leans slightly, being an interesting and refined silhouette. The floor lamp has a rounded lampshade, which helps emit a soft and cosy light. The shade can also be tilted so you can direct the light flow where you need, whether you want a light for reading or a warm glow to create a nice ambience.

The VL38 floor light has an integrated LED light source which is long lasting and can also be dimmed thanks to the 2 step dimmer switch included on the cable. The floor light is available in a white or black finish, which makes it suitable for many interiors both at home and in professional settings.
