PRODUCT DESCRIPTION

Designer: Vilhelm Lauritzen

VL38 LED Wall Light by Louis Poulsen

The VL38 LED wall light is based on the design of the [VL38 table lamp](#), which was designed in the 1930s for the Radiohuset building in Copenhagen by Vilhelm Lauritzen. The wall light has a sleek and slender brass arm which bends down to support the lampshade, which has smooth lines and a rounded shape.

The VL38 LED wall lamp is available in 2 finishes, black or white, and has an adjustable shade so you can direct the light where needed. You can use as a reading/task light in your office or use it to line the walls in your lounge to create a cosy atmosphere with a chic and timeless design. The wall lamp has a handy 2 step dimmer switch and will seamlessly fit into any design scheme, suitable for a wide variety of settings.

This wall light comes with a cable and plug so needs to be installed by a nearby socket. It can also be hard-wired into the mains by a qualified electrician.

PRODUCT SPECIFICATION

Light Source: 9.6W, 2700K, 416 Lumens
