PRODUCT DESCRIPTION

Designer: Jorge Pensi

Bover Non La A/04 LED Wall Light

Designed by Jorge Pensi, the Bover Non La A/04 LED Wall Light is an easily adjustable and practical modern task light. The asymmetrical shade is home to the LED light source, which is diffused through a polycarbonate diffuser in order to create a glare free but powerful down light. This results in a calming task light.

The stripped back design, as well as the modern materials offers an Avant Garde touch to your space, with a choice between three colours. Non La Wall Light is available in either **Chrome**, **Copper**, or **White Lacquer** finish. The lamp head can be easily twisted on the wall mount to direct the light to where it is needed most in the room. This stylish wall lamp is a beautiful addition to hallways, kitchens, bedrooms, workspaces and a wide range of contemporary commercial spaces.
