PRODUCT DESCRIPTION

Designer: Alex Fernández Camps & Gonzalo Milá

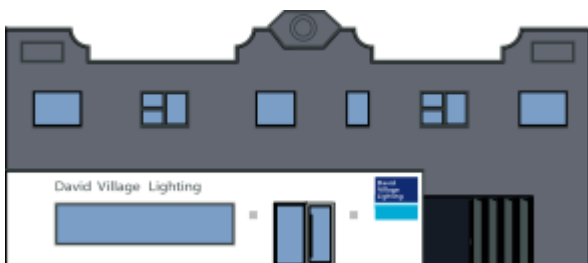

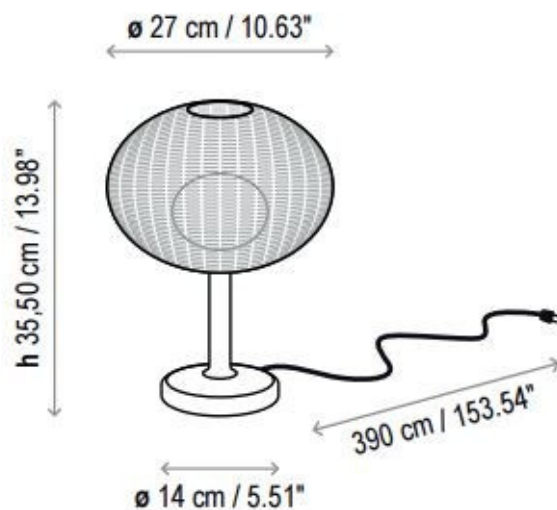

Bover Garota M/36 Outdoor LED Table Lamp

The Garota M/36 Outdoor table lamp was designed by Alex Fernández Camps & Gonzalo Milá for Bover and generates a unique environment. This small outdoor table lamp boasts a structure made of aluminium that can withstand exposure to the elements, whilst the hand woven shade is composed of polyethylene synthetic fibre. The LED light source is protected by a polyethylene globe diffuser, which results in a warm and calming light output, perfect for creating ambience in your space.

The shade of the Bover Garota M/36 LED Table Lamp was inspired by the shell of a sea urchin, and allows illumination to escape from both the top and the bottom of the design. This results in both direct and indirect light output and overall a more even dispersion of illumination.
