PRODUCT DESCRIPTION

Designer: Jamie McLellan

Resident Spar Floor Lamp

Resident Spar Floor Lamp was designed by Jamie McLellan in 2011. This particular lamp was the first product McLellan launched and is now a recognised design staple. Spar is a large floor lamp that takes inspiration from a traditional sailboat's mast. This simple two-dimensional frame relies on a tensioned electrical cable for support; it has a spun aluminium shade that rotates 360 degrees allowing for the light source to be directed accordingly.

Resident Spar Floor Lamp offers a choice between two different coloured wires (red and black) with a black structural frame. This eye-catching floor lamp is perfect for any office or workspace.
