PRODUCT DESCRIPTION

Designer: Resident Studio

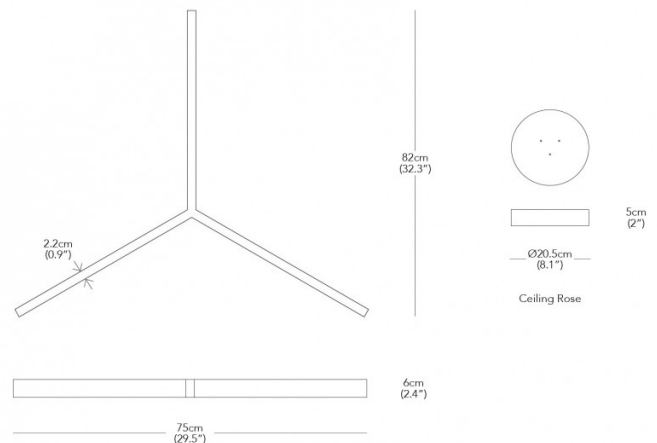

Resident Tri LED Pendant

Resident Tri pendant is a triangular-shaped light constructed from metal. Three intersecting bars culminate at a centre point, to display this classic minimal geometric shape. A recessed and diffused LED light source reflects off the inside of the channel to deliver a warm downward hue.

The Tri Pendant is a diffused member of the Resident's geometric family which is suspended from the ceiling by slimline wires for an invisible floating effect. Tri works well as a single pendant, displayed in multiples or with other members of the geometric lighting family. Available in matt black, brushed brass or brushed aluminium.
