PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

Bon Jour Unplugged LED Table Lamp by Flos

The contemporary Bon Jour Unplugged table lamp, by Philippe Starck, is a small table version of the original [Bon Jour](#), ideal for cordless portable use. The Unplugged table lamp has a rechargeable battery, which has a life of six hours after being charged with the included charger cable. The table light also has an optical switch sensor on the base that provides 4-step dimming function. Philippe Starck designed the Bon Jour with revolutionary "Edge Lighting" technology; the ultra-flat LED light source is almost invisible and provides a perfectly uniform light, perfect for dining beside or as a bedside table or reading light.

This table lamp has a variety of interchangeable crowns in red, amber, yellow, transparent, smoke, rattan and fabric which can be contrasted or matched to the lamp base which is available in matt white, chrome, matt chrome and polished copper. This customisability allows the user to adapt the lamp to suit interior décor styles.
