PRODUCT DESCRIPTION

Designer: Neil Poulton

Surf 300 LED by Artemide

Designed by Neil Poulton for Artemide, the Surf 300 wall light is a spectacular and contemporary lighting solution. The wall light is made of aluminium, making it a durable item and is part of Artemide's Architectural collections. The light is indirect and emitted upwards and with 3000K colour temperature, a warm white light. Available in a white colour finish the Surf 300 can compliment any interior, recommended for both commercial and residential projects.

The Surf 300 is also available with a retrofit lamp version. You may also be interested in the smaller version of the Poulton's design, the Microsurf wall light.
