PRODUCT DESCRIPTION

Designer: Markus Johansson

Le Klint Carronade II Pendant

The Carronade II Pendant was designed by Markus Johansson for Le Klint and was created using the idea of a small lamp, inspired by a cannon, shooting light where directed. This small pendant light is ideal for use as a single working light but is also small enough to create a beautiful cluster either in a row or at various heights and angles. The metal washers either side of the shade allow you to angle the illumination depending on where you need it most.

The [Le Klint Carronade II Collection](#) is a 2024 range made in the same high quality that other Le Klint products are known for, it is an evolution of the previous Carronade collection, offering new finishes and high-quality materials. This pendant light utilises either smoked or black oak with metal detailing.

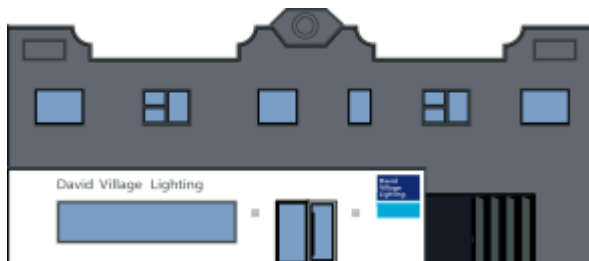

PRODUCT SPECIFICATION

Light Source: 1 x Max 20W E14 (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions: Shade: Ø12cm
Height: 24cm
Cable Length: 300cm
