PRODUCT DESCRIPTION

Designer: Harrit - Sørensen + Samson

Le Klint Snowdrop 120 Pendant Light

The inspiration for the Snowdrop 120 pendant light is in the name, the snowdrop flower. Its downward pointing shade and trumpeted shape provided the basis for the trio of designers Thomas Harrit, Kim Samsonog and Nicolai Sørensen's [Le Klint Snowdrop collection](#).

The Snowdrop pendant has a soft light and an organic feel, entirely reflecting Le Klint's distinct design identity. A perfect reflection of how traditional craftsmanship can be transformed into modern design, the Snowdrop pendant light is made from hand-folded PVC or paper which emits a gentle light. Hang as a singular pendant or line several pendants in a row to create a marvellous lighting feature. To create maximum impact mix and match between the several sizes available. Suitable for home and commercial environments, this pendant is perfect for lounge and dining areas.
