Snowdrop 320 Floor Lamp by Le Klint

The trio of designers Thomas Harrit, Kim Samsonog and Nicolai Sørensen were inspired by the snowdrop flower, reflected in the delicately hand folded shade combined with the natural curve of the floor support, mimicking a flower stem.

The Le Klint Snowdrop floor lamp has an elegant presence wherever it is situated, combining traditional craftsmanship with modern design effortlessly. The hand folded shade replicates the petals of the snowdrop flower, held atop a slightly leaning base, to aid in lighting a seating area or side table. The floor lamp also has a tilting feature, which allows you to tilt the stand to direct the light where you need to. A striking and beautiful floor lamp, the Snowdrop floor lamp will seamlessly fit into your design scheme in both home and commercial interiors. Match with other lights from the [Le Klint Snowdrop collection](#) to have stunning craftsmanship throughout your room.
