Le Klint Swirl Ceiling / Wall Light

The Swirl ceiling and wall light was designed by Øivind Slaatto in 2014, adding to his range the [Le Klint Swirl collection](#). Originally conceived from his interest in fractals and a snail's shell, Slaatto has produced a wall/ceiling light that swirls to the centre, resembling that of a beautiful rose. The whirled diffuser softens the light well and the large surface area means the light still makes an impact.

Perfect for lots of different spaces, the Swirl wall/ceiling light comes in an understated white or in a copper colour finish which will add a splash of colour to the room. Being chic and iconic this ceiling and wall light will make an impact and will fit into any design scheme.
