PRODUCT DESCRIPTION

Designer: Øivind Slaatto

Swirl Floor Lamp by Le Klint

Designed by Øivind Slaatto in 2016, the Swirl floor lamp gets its aesthetic from the idea of a snail's shell and fractals, a mathematical concept based on growing patterns. The lampshade is made from top quality plastic, sweeping around a central axis to produce a spherical, curved shape that is elegant and graceful.

This floor lamp casts a warm glow, diffusing light in a way to create a lovely and cosy atmosphere. Like all Le Klint's products, this floor light is well-made and intricately designed, with every little detail being considered. Suitable in home and commercial interiors, the Swirl floor light will look perfect in reception and lounging rooms. To create a seamless lighting scheme in your room, match with other lights from the [Le Klint Swirl collection](#).
