PRODUCT DESCRIPTION

Designer: Francisco Gomez Paz

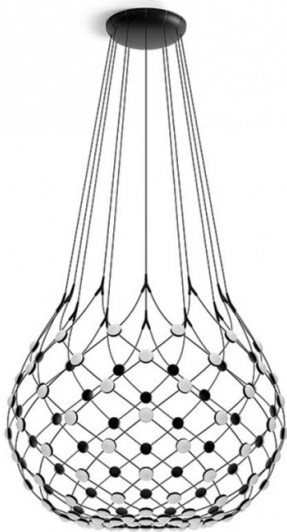

Luceplan Mesh LED Suspension Light

The Mesh Suspension Light was designed by Francisco Gomez Paz and is available in four size options. The Mesh is a modern chandelier with an unconventional design that harbours a theatrical and dramatic appeal. The name comes from the polycarbonate mesh that makes up the luminaire's frame in replacement of a shade or diffuser, it is made up of flexible cables which host numerous round LED reflectors. The design ensures a lightweight and airy aesthetic whilst still remaining functional.

The structure of the lamp permits exceptional freedom in the control of its luminance: with the Luceplan app the intensity can be adjusted, and it is possible to choose which sectors to illuminate – an upper ring, the lower zone, or a lateral sector. Thanks to its versatility and spectacular image, Mesh is perfect for both the home and public spaces.

The Mesh Suspension received the 2016 Red Dot "Best of the Best" Design Award for the innovative and forward-thinking approach to the traditional suspension light.

Please Note: The Luceplan Mesh Suspension in Large and Extra-Large comes with a cable length of one metre as standard but can be supplied with a cable length of up to five metres in increments of one metre.

PRODUCT SPECIFICATION

Light Source: **Small:** 40W, 2700K 2469 Lumens
Medium: 40W, 2700K 2469 Lumens
Large: 53W, 2700K, 3081 Lumens
Extra Large: 64W, 2700K, 3583 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Small:

Cable Length: 100cm
Shade Height: 55cm
Width: 55cm

Medium:

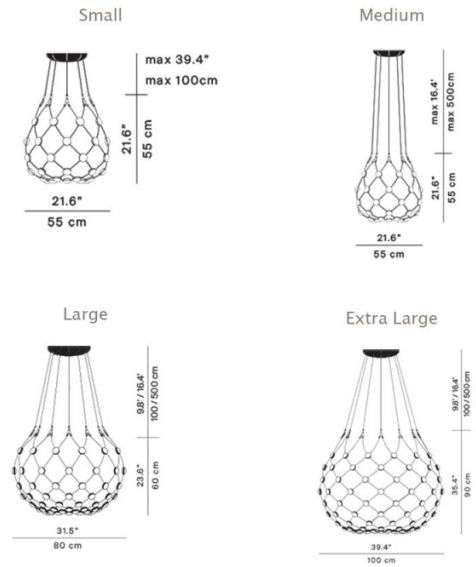

Cable Length: 500cm
Shade Height: 55cm
Width: 55cm

Large:

Minimum Cable Length: 100cm
Maximum Cable Length: 500cm
Shade Height: 60cm
Width: 80cm

Extra Large:

Minimum Cable Length: 100cm
Maximum Cable Length: 500cm
Shade Height: 90cm
Width: 100cm
