Pipe Suspension by Artemide

The Pipe Collection was designed by Herzog & De Meuron for Artemide Lighting. The designer duo are known for transforming architectural materials while always retaining the essentials of design. Pipe Suspension has a fully flexible and adaptable stem, and rotatable diffuser. You can change the the position of the lamp as you wish, and direct the light to any direction. The diffuser, semi-transparent, has small perforated openings through which light can escape and accentuate the light's details. All Pipe lights, which also includes a floor and a ceiling/wall lamp, has been reimagined to hold an integrated LED light source. T
