PRODUCT DESCRIPTION

Designer: Omer Arbel

76.1 Pendant Light by Bocci

The 76.1 pendant, designed by Omer Arbel for Bocci, is a beautiful and unique light, made from blown glass. The intriguing, graphic pattern is formed from a vacuum pulling layers of clear and white glass through copper meshes that sit in between the glass layers. The mesmerising design also acts to create a warm glow, with light source peering out from the centre, emanating out to the edges.

The 76 single pendant light comes with an LED light bulb provided by Bocci which is long-lasting and effective. The pendant lamp also comes with a deep ceiling canopy included in the purchase. You can use the 76.1 pendant light in many settings, in both commercial spaces and homes, to provide a welcoming and functional illumination. The cable length is also adjustable so you can have a personalised look in your interior.
