PRODUCT DESCRIPTION

Designer: Timo Ripatti

U-Light ULA Suspension by Axolight

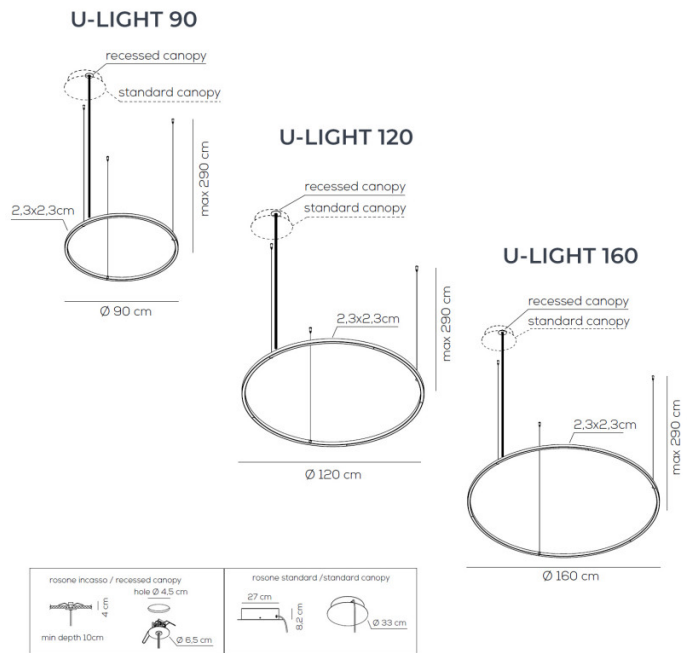

A successful collection, the [Axolight U-Light collection](#) was designed by Timo Ripatti for Italian lighting company Axolight. Ripatti's U-Light design was awarded the NYCxDESIGN Award by Interior Design magazine and ICFF in 2016. The U-Light suspension light is a testament of Ripatti's and Axolight's craftsmanship, using cutting edge technology to house an integrated, dimmable LED source.

The U-Light ULA suspension has a minimalist and stylish circular design that is suitable for both residential and commercial spaces, being useful and decorative for the space. The suspension light is available in three sizes, with a diameter of 90cm, 120cm or 160 cm, so you could choose to install a single light, or multiple of different sizes to create your own unique and awe inspiring cluster of lights.

The U-Light collection further includes the dome shaped [U-Light ULI](#) suspensions, a [ceiling/wall light](#) and a [wall light](#).
