PRODUCT DESCRIPTION

Designer: Timo Ripatti

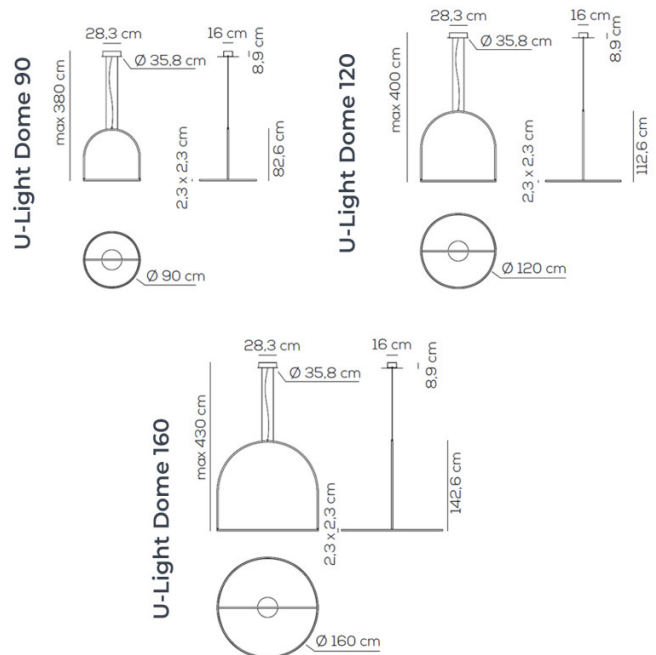

U-Light ULI Suspension by Axolight

Timo Ripatti, a furniture designer and architect, created the [Axolight U-Light collection](#) exclusively for the Italian lighting brand. The lights were such a success, that in 2016, they won the NYCxDESIGN Award by Interior Design magazine and ICFF. The U-Light ULI suspension has a dome shaped frame, made of painted aluminium and available in a rust brown or an anthracite grey colour finish, being a simplistic and modern design.

With an integrated LED source, the U-Light ULI suspension light is energy efficient and emits a warm downward glow. The suspension is also dimmable, so the light intensity can be tailored to your mood and instantly change the room's atmosphere. A light that is suitable for both commercial and residential projects, the U-Light ULI is available in 3 sizes which reflect the diameter of the light: 90, 120 or 160. A testament to Axolight's ability to go big in the design world, this contemporary light will make an impact in the room.
