PRODUCT DESCRIPTION

Northern Unika

Unika is a mouth blown series of small, glass pendant lamps, originally designed for the Restaurant Grønbech and Churchill in Copenhagen. Its simple base is made of solid brass; a detail that gives the lamp a clean, industrial look, making a sharp contrast to the fragile, handmade glass lamp shade. The shade is available in two sizes: 135 mm and 200 mm (height), and hangs from a twisted black fabric wire.

Varied thicknesses and imperfections in the glass add a subtle honesty to this object, as well as a distinct, warm glow to the lamp. Lit or unlit, the fixture adds elegance and lightness to any room. The Unika series is suited for both commercial and private interior spaces.

Wire: Twisted fabric wire (black on transparent and grey versions, white on white version)

PRODUCT SPECIFICATION

Light Source: 1 x Max 60W E14 (excluded)
