PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop P/131 LED Floor Lamp

The Drip/Drop P/131 LED Floor Lamp is a perfect combination of minimalistic design and high functionality. This floor lamp was designed by Christophe Mathieu for Bover in 2017 and is possibly the most versatile out of all the lamps in the Drip/Drop collection. The Bover Drip/Drop P/131 is available with a choice of two shades - either Drip or Drop. Drip boasts a slender and minimalistic design with sharp clean lines, whilst the Drop shade creates a more dramatic effect in your space with distinctive curves and a wider diameter. Both shades can adapt to a range of settings, specifically contemporary interiors.

The Drip shade is crafted from borosilicate glass, resulting in a bright, yet still ambient, illumination that is perfect as a soft and glare free task light. Whereas the Drop shade is constructed from frosted borosilicate glass, which emits a gorgeous light that is much more diffused than with the Drip - yet still functional. This modern floor lamp can truly elevate any space, but can be particularly striking in a living area in your home. But where it truly shines is in commercial settings. The P/131 adds a modern touch to cafes, bars, hotel bedrooms, hotel lobbies and most impressively communal waiting areas.
