PRODUCT DESCRIPTION

Designer: Poul Henningsen

PH 5 Mini Pendant Light by Louis Poulsen

Poul Henningsen launched the PH 5 pendant as an answer to the constant change of bulb sizes by light manufacturers. After the success of his three-shade light system, Henningsen created the PH5 pendant light which no matter where you're sitting emits zero glare. This is the mini version of the PH5, released in 2017 to continue the spirit of the iconic design and to make it suitable for any space.

The PH 5 Mini pendant is available in 13 colour options, with 11 painted finishes and 2 metallic finishes. It should be noted that the copper and brass pendants are untreated and therefore over time a patina will begin to form, which only adds to the beauty of the PH 5 Mini pendant light. This process might have begun by the time the light is delivered.

A brand new 2020 release, Louis Poulsen have added 3 finishes to the PH5 Mini collection, monochrome white, monochrome black and monochrome blue. These striking finishes will make a huge impact in your space, being both bold and contemporary.

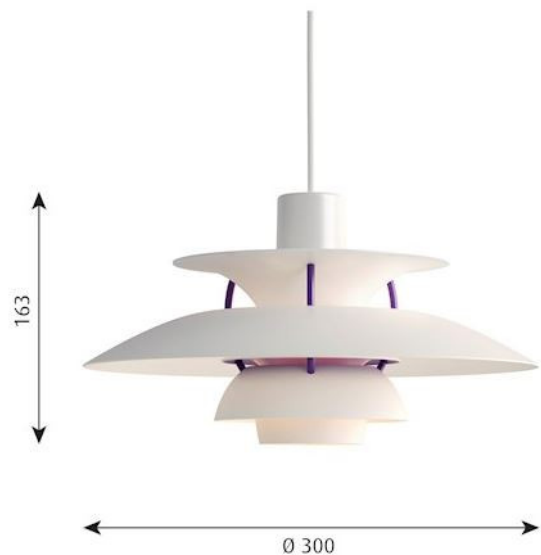

PRODUCT SPECIFICATION

Light Source: 1 x Max 20W E14 (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø30cm
Shade Height: 16.3cm
Cable Length: 300cm
