PRODUCT DESCRIPTION

Designer: Herman Studio

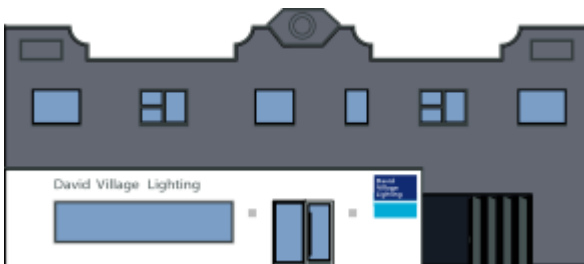

Ferm Living Herman Chair

The surfaces are made of oak veneer and supported by the lightweight design of powder-coated metal. The Herman Chair will welcome you with its wide backrest making sure you will sit comfortably for hours and hours. The chairs are easily stacked, and as a nice added detail the angles of the wooden backrests are designed so the chairs can hang on the table. This way you can easily clean underneath the table and the chairs won't take up space when you don't need them. The Danish Herman Studio designed the Herman Chair, and it is produced by Ferm Living.

Care instructions: Wipe with a damp cloth
