PRODUCT DESCRIPTION

Designer: Zaha Hadid

Slamp Aria Gold LED Suspension

Designed by Zaha Hadid, the Aria Gold Suspension is fluid and dynamic. This beautiful and lavish lighting design consists of 50 layers of patented Cristalflex panels coated in a gold powder finish, suspended from a round canopy by three cables. These panels are arranged around an LED light source and each is completely unique and different from the next. The design emits luxury and makes a perfect statement piece in contemporary environments, both residential and commercial, creating a lavish ambience. This decorative light is designed to offer diffused light as well as a bold design to any interior space.

The Aria Gold Suspension is a dramatic modern day chandelier that is perfect for use in hallways, bedrooms, dining areas and hotel lobbies. Hadid's design is also available in [two other finishes](#), making it easy to fit with a multitude of décor options.
