PRODUCT DESCRIPTION

Designer: Zaha Hadid

Slamp Avia Suspension

Avia is designed by Zaha Hadid to add drama into any setting, it uses the unique patented Opalflex® of the Slamp brand to achieve an extraordinary style and a fascinating lighting effect. Each of the 50 slats, that make up the shade, hold a different shape - together making up the unique three dimensional form of this light.

Hadid's architectural objects bring the designer's revolutionary and iconic semantics to any domestic or public space, inspiring harmony between beings and atmospheres. When illuminated, this decorative suspension light transforms a simple source of light into an object of admiration. The Avia boasts soft tones and reflections, whilst also emitting a direct light downwards. It creates ambient lighting ideal for use in both residential and commercial interiors, making the luminaire particularly suitable for illuminating dining areas or living room coffee tables.
