PRODUCT DESCRIPTION

Designer: Studio 14

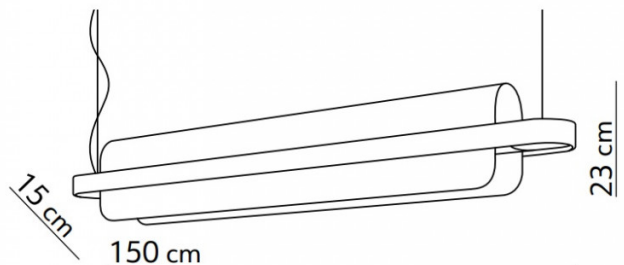

KDLN Nami LED Suspension

The Nami suspension was designed by Alberto Saggia & Valerio Sommella and aims to emulate waves on water that glisten in the sun. Nami, meaning wave in Japanese, uses the unique rippled glass to play with light and perspectives. The resemblance of the enigma of water and the ocean is reflected onto surfaces around the shade as the light and shadows play on the rippled glass. The textured shade encompasses a metallic structure that is available in a selection of colour finishes, such as black or brass. This structure houses the integrated LED light source that produces a clean bright lumen output ideal for downlighting a dining table or having a stunning uplight to reflect the glass patterns on the ceiling.

The tranquil ocean-like reflections made by the glass encompass the tranquillity and calmness of Japanese culture. Taking time to enjoy the simple things in life is the essence that this suspension lamp by KDLN is aiming to emit. Paired with the black or brass metallic structure, the shimmering effect is brought to life.

PRODUCT SPECIFICATION

- Light Source:** 60W, 2700K, 5040 Lumens
- IP Code:** 20
- Dimming:** Dimmable via 1-10V dimming systems. Please consult your electrician, additional wiring may be required on site.
- Dimensions:** Width: 150cm
Shade Height: 23cm
Shade Depth: 15cm
Cable Length: 180cm
