**PRODUCT DESCRIPTION**

**Designer:** Ini Archibong

**KDLN Hive Table Lamp**

This art deco inspired design uses a golden patterned Japanese vase style design with a delicate opal glass shade resting on top. KDLN describes this design by saying 'the freedom to merge styles and influences to create a one-of-a-kind object and the third firing technique to produce fine decoration in pure gold'. The enameled base uses a 'third firing' technique that makes the gold plating and colour of the base as vibrant and shimmering as possible. This makes this KDLN table lamp a striking new addition to your home.

The opal diffuser is double layered for the perfect diffused light that fills the surroundings with an ambient atmosphere. The mouth-blown opal frosted glass adds a simply elegant touch to the overall design. Place this lamp on a bedside table or shelf to bring a designer touch to your home.
