PRODUCT DESCRIPTION

Designer: Poul Henningsen**PH 5 Pendant Light by Louis Poulsen**

Poul Henningsen designed the PH 5 pendant back in 1958 after his very successful PH series, and in response to changes in light bulb size and shapes. The light fixture radiates a beautiful and warm glow that shines both upwards and downwards and is always glare free. The original design is now available in 13 finish options, 15 coloured and 2 metallic ones, thus allowing you to choose a PH 5 pendant light that fits best with your home decor. Alternatively, the pendant can be hung in multiples using different finishes, creating your own colourful PH 5 cluster.

The copper and brass surfaces are untreated. Which means that over time the surface will form a patina, adding to its beauty. That process might have already begun when the product is delivered.

In 2020, Louis Poulsen brought out 3 new finishes: monochrome black, monochrome white and monochrome blue. These stand-out colours show off the silhouette of the PH5 pendant lamp, being more bold and statement finishes for modern interiors.

PRODUCT SPECIFICATION

Light Source: 1 x Max 75W E27 (excluded)**IP Code:** 20**Dimming:** Dimmable via mains phase dimming.**Dimensions:** Shade: Ø50cm
Shade Height: 26.7cm
Cable Length: 300cm
