PRODUCT DESCRIPTION

Toldbod pendant light by Louis Poulsen

The Toldbod pendant emits a direct downlight, never allowing for any glare. A small amount of upward light is also provided from the top of the pendant, a Louis Poulsen design signature. The inside of every Toldbod shade is white and efficient light emission. The pendant light is ideal for task lighting as well as general ambience for any room, and can also be arranged in clusters. The Toldbod pendant light is available in 3 sizes and 5 colours in a matt finish, so you can select the colour of your liking or one that suits your decor.

The Louis Poulsen Toldbod was inspired by the PH Ellipse reflector, the last design by the iconic Poul Henningsen. The first Toldbod pendant lamp, in the size Ø120, was released in 2009 and Louis Poulsen have now released the pendant in more size options. The collection also includes the [Toldbod 155 wall light](#) and the [Toldbod Glass pendant](#).
