PRODUCT DESCRIPTION

Designer: Terence Woodgate

Case Solid Cone Pendant

The Case Solid Cone Pendants are a pure conical form, crafted from European oak or walnut. The rounded inner edge of the shade base is a design signature of the Solid collection, and the solid shade rests on a triangular support to allow for cooling air flow to the lamp. A patented adjustable support allows the shade to be hung vertical and straight. As the materials used to make these pendants are natural, the grain will vary from piece to piece, making each shade body unique.

Designed by British designer Terence Woodgate, The Solid Cone Pendants are in keeping with his minimalistic and modern aesthetic. The downward light makes these pendants ideal for task lighting above desks or work surfaces. They can be hung as individual pendants or in multiples, making them a versatile collection for a range of spaces and interiors.
