Yanzi Table Lamp by Artemide

Neri & Hu were inspired by the plethora of swallows resting on a nearby scaffolding, and the Yanzi was created. The lamp has a lightweight composition with these figures of swallows balancing on a perch or branch. The bird is depicted with a brass streamlined body and a glass sphere as a head, where the light is diffused.

The Yanzi Collection has a floor lamp and two suspension lights with the characteristic figures either free on a perch or confined in a glass cage. The lights were born from a blend of tradition and innovation, a characteristic of Neri&Hu who use research as a tool in their designs. The Yanzi lights can create a lightweight composition and form a light landscape in any interior, adding a poetic elegance.
