Tom Dixon Spot LED Surface Obround Light

SOURCE: <https://www.davidvillagelighting.co.uk/product/tom-dixon-spot-led-surface-obround-light/18906>

PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Spot Surface Obround Light.

The Tom Dixon Spot Obround Surface Light is unique in its design, a futuristic but contemporary aesthetic. This surface light is available with either a black or gold outer casing, encapsulating a glass lens. This lens refracts the integrated LED light source, and results in a beautiful and functional illumination. The lens is made of high quality clear cast glass, which focuses the light and is graded K9, meaning its clarity is similar to that of crystal.

The copper plating of the Tom Dixon Spot Surface Light is finished with physical vapor deposition (DVP) to prevent oxidation in humid or wet surroundings, making this light extremely versatile. Tom Dixon Spot surface is suitable for installation on either your wall or ceiling, acting as a stylish design feature for both domestic and commercial spaces. The Spot collection boasts an IP rating of 44 which means they are ideal for bathrooms.
