PRODUCT DESCRIPTION

Designer: Joel Karlsson

Orsjo Belysning Streck 5 Suspension.

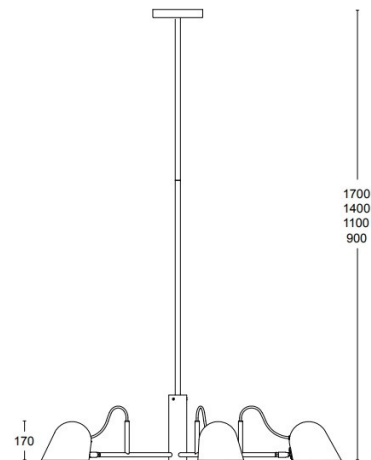

The Orsjo Streck Suspension Light with five arms is a sleek and elegant take on a ceiling light. The piece is made from powder coated steel with brass detailing, giving it an industrial feel, it also hangs from a black textile cord. The Streck 5 Suspension suits a variety of décor styles and the mixture of classic and contemporary design truly confirms this versatility. This light features five stunning cone shades, each mounted on the end of their own black steel arm. It also offers four different height options and can be adjusted to suit your environment.

As always with a Joel Karlsson design, a lot of thought has gone into the details. This includes considering how the electric cable will hang, as this is strongly connected to the longevity of the product.

The astounding adaptability of this piece not only means it will suit any interior style, but it can also work perfectly in both commercial and residential spaces. This light would be a perfect piece for above your dining room table, office or even throughout a bar or restaurant.
