## PRODUCT DESCRIPTION

**Designer:** Stefan Diez

## Vibia Guise Horizontal LED Suspension Light

The Guise Horizontal pendant light is a contemporary and innovative fixture featuring a stunning borosilicate glass lampshade. The designer, Stefan Diez, creates a highly skilful pendant as he manages to hide the integrated LED light source despite the shade being made of glass. This creates a beautiful and intense glow which can warm the room and provide effective and welcoming illumination.

The Guise Horizontal pendant lamp comes in two sizes, the smaller 2275 and the larger 2277. You can use the pendant light alone or in multiple and could mix and match the two sizes depending on the scope of your space. Use in homes, hospitality venues, commercial spaces and work settings for a modern and stylish lighting solution.
