Normann Copenhagen Bell Pendant

PRODUCT DESCRIPTION

Designer: Lars Beller Fjetland

Normann Copenhagen Bell pendant

Normann Copenhagen Bell pendant was designed by Andreas Lund and Jacob Rudbeck. Bell provides directional light and can sit perfectly above your dining table or conference room. Lund and Rudbeck pay special attention to detail, with the shape of the pendant and especially at the connecting point of the cable and the shade. At the same time, the choice of material for the Bell was specifically picked to make the design clean and minimalist.

Bell pendant, available in 4 colours and 4 sizes, has a robust shape with an industrial element and is perfect for home decor or a professional setting such as a restaurant or hotel entrance. The colour options include black, white, grey and sand.
