PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Amp Table Lamp

Amp Collection was designed by Simon Legald in 2014 for Normann Copenhagen, featuring a range of lamps inspired by old tube amplifiers from the 1960s. Norman Copenhagen Amp collection comprises unique shapes and classic materials: marble and glass to add a nostalgic and contemporary feel to modern interiors. The Amp collection is versatile and can be applied to many situations to bring a stylish midcentury presence to any contemporary home.

Normann Copenhagen Amp table lamp is perfect for living rooms and bedrooms, creating a softly diffused light for added ambience but bright enough to read by. The Amp table lamp is available in three colour combinations to suit a wide range of interior designs. [Amp collection](#) includes a Wall lamp, Pendant, Table Lamp and a Chandelier.
