PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Amp Table Lamp

The Normann Copenhagen Amp was designed by Simon Legald in 2014, inspired by old tube amplifiers from the 1960s. The Amp Table Lamp boasts a unique shape and classic materials: marble and glass to add a nostalgic and contemporary feel to modern interiors. Amp is versatile and can be applied to many situations to bring a stylish midcentury presence to any contemporary home.

The Normann Copenhagen Amp Table Lamp is perfect for living rooms and bedrooms, creating a softly diffused light for added ambience but bright enough to read by. This lighting solution is available in three colour combinations to suit a wide range of interior designs. The [Amp collection](#) also includes a Wall lamp, Pendant and a Chandelier.
