PRODUCT DESCRIPTION

Designer: Daniel Debiasi & Federico Sandri

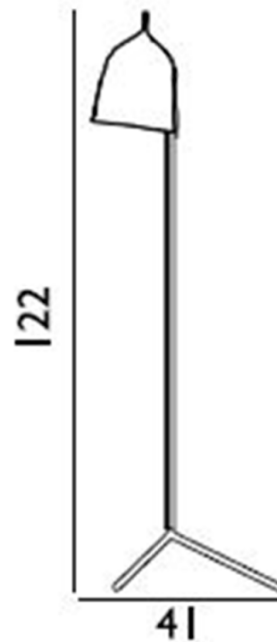

Normann Copenhagen Stage LED Floor Lamp

Normann Copenhagen Stage LED Floor Lamp was created by design duo, Daniel Debiasi and Federico Sandri. The Stage Lamp draws its smooth mobility from professional stage lighting and casts an attractive and warm beam wherever it is pointed. Stage Floor Lamp was inspired by professional spotlights, as used in film production and photo shoots. The inspiration can be found in the adjustable, tilting light source and the stable tripod base, while retaining a uniquely clean and light expression.

The Stage floor lamp can be used as a reading light or for mood lighting, depending on whether the light source is tilted for direct or indirect lighting. The lamp is available in beautiful neutral shades of black, white and grey, to fit any interior. Thoughtfully designed to feature in both commercial and residential environments.
