PRODUCT DESCRIPTION

Designer: Michael Anastassiades

Flos Arrangements LED Pendant Light

The Arrangement pendant lights by Michael Anastassiades for Flos are a collection of elegantly crafted suspensions which can be compiled to form a stunning configuration of geometric luminaries. Consisting of nine shapes and sizes, the components are produced using black aluminium frames which are then fitted with a platinum optical silicone diffuser.

Equally as visually impressive as a stand alone pendant, the Arrangements by Flos offer versatility with a surface and recessed option so that the suspension can be fitted to concrete or plasterboard ceilings. The Arrangement pendants are dimmable via push, 1-10V, and DALI dimming systems. In the absence of these systems, the light flow can be set with the push system included in the ceiling rose.

Create your arrangement [here](#) then simply send it to info@davidvillagelighting.co.uk when finished and we can create a quotation for you.

PRODUCT SPECIFICATION

Dimming: Dimmable via push, 1-10V, and DALI dimming systems
