PRODUCT DESCRIPTION

Designer: Jonas Wagell

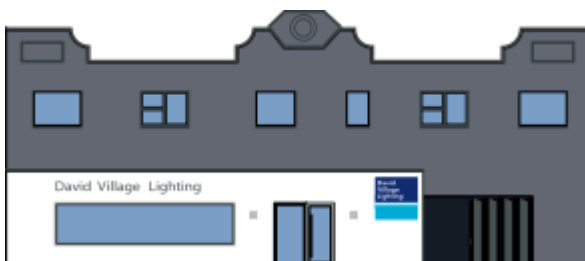

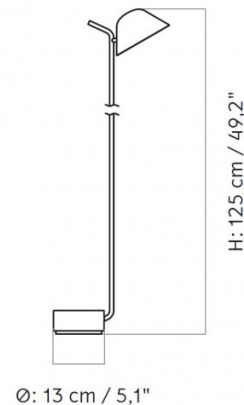

Audo Copenhagen Peek LED Floor Lamp

The Peek floor lamp was originally designed by Jonas Wagell to accompany a sofa. Finding that most floor lamps are big and robust, Wagell wanted to create a slimline light that could subtly pop behind a seating area. The Peek floor light does just this, with a sturdy base which holds a sleek stem and small lampshade that can aid with reading and can provide a cosy ambience.

The lampshade is equipped with a hand stem on the top which allows you to direct the light where needed. The stem also features a touch dimmer so you have full control over light intensity in your space.
