PRODUCT DESCRIPTION

Designer: Jordi Canudas

Marset Dipping Light Table lamp

More than just a functional lamp, Dipping light's designer Jordi Canudas creates to excite. Dipping light reveals beautiful gradient tones of colour when illuminated, creating a welcoming ambient effect. When the lamp is turned off, the coloured glass sphere is an eye-catching design piece for a shelf or table.

The designer Jordi Canudas is a scientist of light! Seeking to be surprised by light and capture the essence of it, Canudas experiments a lot to find the unexpected. Dipping Light is a result of one of these experiments – dipping a lit bulb into paint several times – with the end result inspiring this lamp. The base is available in brass and graphite with six coloured glass finishes to choose from.

Marset Dipping light is the perfect decorative piece for living rooms, bedrooms and social areas to create a mood setting ambience as well as a charming feature.
