PRODUCT DESCRIPTION

Designer: Alex Fernandez Camps

Bover Cornet B/52 LED Bollard

Designed by Alex Fernandez Camps for Bover, the Cornet B/52 LED Bollard is a perfect solution for illuminating your outdoor areas. The B/52 is heavily inspired by nature, boasting curved lines and an organic design. The decoration on the lamp head resembles crashing waves in the ocean, which are flooded with light when the LED light source is turned on. Although even when turned off, the Bover Cornet B/52 makes a statement.

The second largest lamp in the Cornet collection, the B/52 grants more versatility in terms of usage than its smaller counterpart. The B/52 spreads a larger beam of light without being too dominant in your space. This bollard is a great lighting solution for private gardens, public walkways, public parks and even by a public or residential pool. Thanks to the durable materials and IP66 rating, the Cornet B/52 is highly weather resistant.
