### PRODUCT DESCRIPTION

**Designer:** Greta M. Grossman

### Grashoppa Table Lamp by Gubi

The Gubi Grashoppa Table Lamp was first produced in 1947 by designer Greta M. Grossman. Similar to the [Grashoppa floor lamp](#), this table lamp is distinguished by its angular arm and elongated conical shade, creating both a playful and modern-looking design. The stand and base both have a brass finish with the lamp shade being supported by a movable brass joint, meaning the light can be directed with minimal glare.

As the name suggests, this light works perfectly as a desk or table lamp, creating an inviting work or home environment with its distinctive, elegant and functional design and is available now in 3 colours.
