### PRODUCT DESCRIPTION

**Designer:** Santa & Cole Team

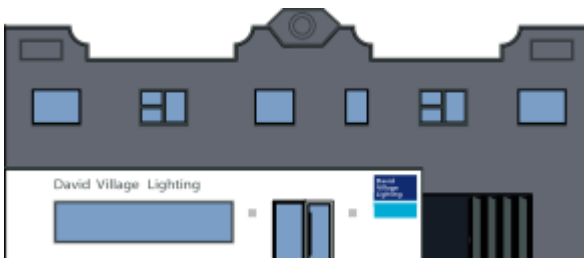

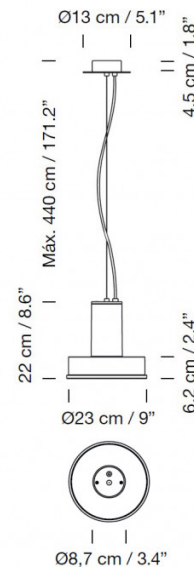

### Arne S Domus Outdoor LED Pendant Light by Santa & Cole

A design originally created for the urban catalogue of Santa & Cole, the Arne S Domus Pendant has been designed and made according to modern standards, translating an industrial pendant to a domestic luminaire. It is an efficient and sturdy pendant lamp, perfect in form and function and with an IP65 rating, the Arne S Domus is suitable to install in both interior and exterior settings.

The Santa & Cole Arne S Domus Pendant lamp has an integrated LED source, housed within a circular plate that is covered by the tempered glass diffuser. Its body, made of aluminium, has a sleek design and is inspired by geometry. The light comes in three subtle colour options, white, aluminium grey or dark green and its simplicity and colours are a tribute to true Scandinavian design.
