PRODUCT DESCRIPTION

Designer: Andre Ricard

Santa & Cole Tatu LED Wall/Table Lamp

The Tatu table and wall lamp was first designed in 1972 by André Ricard. He was initially inspired on a long flight when he was reading about Argentinean wildlife and realised that his light wasn't disturbing his sleeping wife next to him. He then conceived a table light with a flexible body and lens which went on to be a pop art icon in Europe.

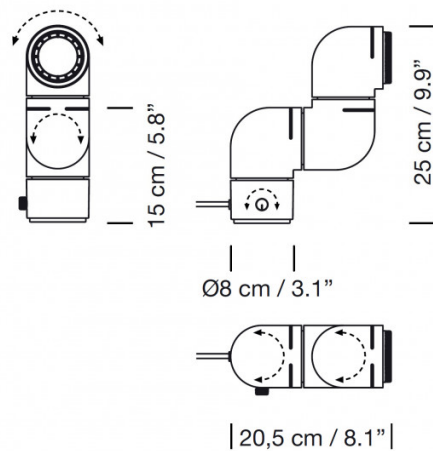

The Tatu wall/table light has three parts that are all adjustable, allowing you to focus the light exactly where you need and the lens can go from a 30° to 50° focal length. The Tatu can be used on tables, desks, and bedside tables and also can be fixed to the wall. The wall/table lamp also is now updated with LED technology and features a dimmer switch for an effective and versatile glow. Choose between the more subtle white or popping red to match your design scheme.

The Tatu comes with a cable and plug so needs to be installed near a socket when fixed to the wall.

PRODUCT SPECIFICATION

- Light Source:** 6W, 2700K, 171 Lumens
- IP Code:** 20
- Dimming:** Integrated dimmer on product.
- Dimensions:** Ø8cm
 Max Height: 25cm
 Max Width: 20.5cm
 Cable Length: 200cm
