PRODUCT DESCRIPTION

Designer: Dima Loginoff

Urban Mini Pendant by Axolight

The smaller version of the Urban pendant lights, the Urban Mini retains that post-industrial aesthetics it is known for. Dima Loginoff designed the collection, among many other successful collections, for Italian brand, Axolight. Loginoff has a unique approach towards shapes that have been thus far unknown to the lighting world. The Urban Mini pendant light has a simple geometric shape, and is available in three refined colour options: wrinkled white, matt bronze and matt nickel. Each pendant comes with a matching finish cable, and a white ceiling canopy.

With an integrated LED source, the Urban Mini is energy efficient and emit a warm white, diffused downlight. Urban Mini is perfect to install in a linear arrangement above tables, bars, receptions or above a certain area you wish to accentuate. A light that will match any interior, whether in residential rooms or contract projects.

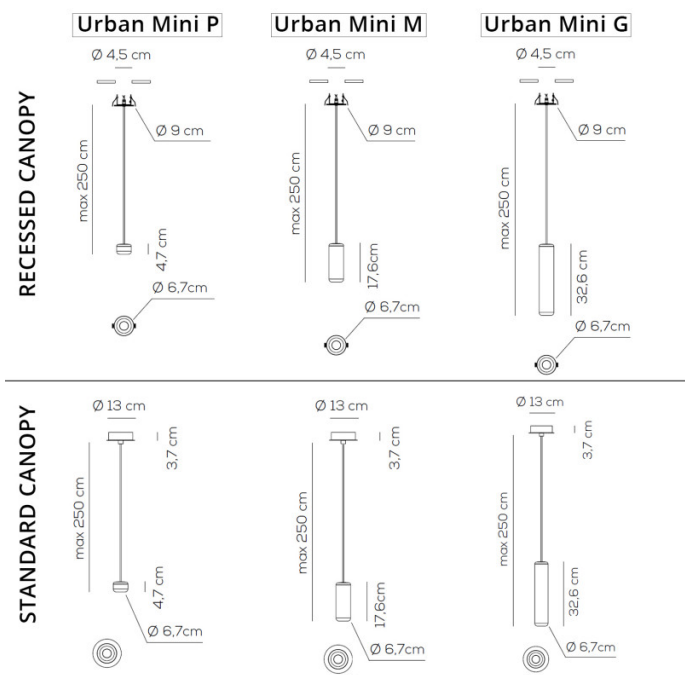

Browse through the [Urban Collection](#), which also includes the Urban mini ceiling light and the larger version Urban, with a pendant and ceiling light.

Please note, the Urban Mini with a recessed canopy is not dimmable as standard; a dedicated PSU driver is required. Please [contact us](#) for more information and pricing.
