PRODUCT DESCRIPTION

Designer: Jens Fager

Convex LED Wall Light by Zero

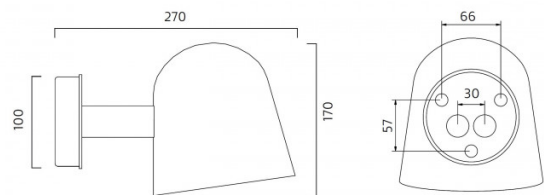

Embodying the word convex with its curved and smooth lampshade, the Convex wall light was created by Swedish designer Jens Fager who channels Scandinavian design with this simple and functional fixture. The wall light is made from steel, formed into a subtle structure and featuring a glass diffuser to conceal the LED integrated light source.

The Convex wall lamp is available in a black, white or galvanised steel finish so you can find the right colour for your design scheme. The LED wall light produces a warm and effective glow and can be placed in the smallest of spaces or used in multiple in large spaces for useful lighting. You can also match with the [Zero Convex pendant](#) for a consistent lighting scheme.
