PRODUCT DESCRIPTION

Designer: Sergio Prandina

Bloom S5 LED Pendant Light by Prandina

The integrated LED version of Prandina's Bloom S5.

Designer Sergio Prandina's eponymous company are known for their skill with glass and the Bloom S5 pendant certainly justifies this reputation. It's unusual shape is created by combining two similarly-shaped blown glass diffusers, facing away from each other, one lighting upwards and one lighting down. These two light sources can be switched on separately or together, and the result is a simple, yet versatile light which is at home in just about any environment. Whether you want to directly light a kitchen counter or dining table, or to create ambience in a living space or restaurant, the Bloom S5 is the perfect solution.Available in 3 colours, as well as a non-LED alternative.

The Bloom S5 LED is not dimmable, but a dimmable version is available upon request; please contact us for prices and further information.
