PRODUCT DESCRIPTION

Designer: Miguel Milá

Santa & Cole Estadio Wall Light

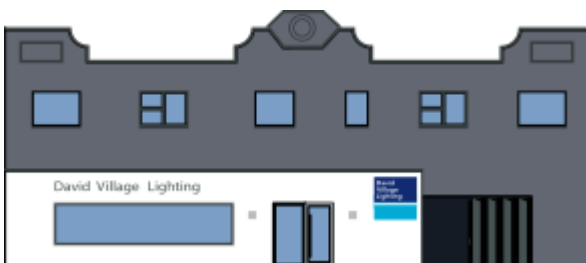

Designed by Miguel Mila in 2015; the Santa & Cole Estadio Wall Light consists of a metal structure with textured glass block diffusers, the glass disperses the light and results in a playful shadow effect. The curved frame ensures the light is emitted outwards but also allows the light to escape both upwards and downwards at the back of the structure - resulting in an even illumination dispersion.

The Estadio Wall was the latest addition to the Estadio collection and is a beautiful addition to hallways or smaller spaces in your home; although this lamp was designed for commercial spaces. Estadio Wall can help to brighten up your office, café, shop or even school.
